**Murphy's
Non-Rust Rim-Kote
Tire Mounting Lubricant**

Product Data Sheet

Description:

Murphy's Non-Rust Rim-Kote Tire Mounting Lubricant is a soft, non-water dispersible paste. It is a stable blend of vegetable oil, soaps, surfactants, mineral fillers and water.

This corrosion resistant tire mounting lubricant prevents tire bead freezing and helps seat tubeless tires in sub-freezing temperatures. Murphy's Non-Rust Rim-Kote Tire Mounting Lubricant has proven itself to be the mounting lubricant of choice for mounting large trucks and is excellent for use in all types of tire mounting systems. Tested safe for use on most common rubber materials.

Features:

- Non-water dispersible
- No objectionable odor
- Non-toxic
- Contains no phosphates
- Contains no petroleum oils
- Low VOC

Product Data:

- Form: Paste
- Color: Tan
- Penetration: 300-350 at 77°F
- Total base number: 10-30 mg KOH equivalent per gram
- Flash point: >220°F (contains water)
- Percent NVM: Approx. 88% by weight
- Pounds per gallon: Approx. 12 pounds
